SELECTMEN'S REPORT

Your board of selectmen herewith submit for your consideration the annual report.

Early in the year of 1949 the State Tax Commission sent a representative to Farmington to check the valuation the selectmen had assessed the property in town. The representative made a thorough survey of one-quarter of the assessed valuation. After his figures were all computed in the Concord office, they found we were only assessing property at the rate of 53% of its true valuation, whereas the state wants it assessed as near 100% as possible. In accordance with the State Tax Commission the true assessed valuation of Farmington should be over four million dollars.

By an act of the state legislature the state aid appropriation to schools was cut drastically. Combining the two above facts is the basic reason why Farmington, as well as many other towns of the state, lost out.

Farmington's loss in the amount of state aid to the schools was $16,596.55, and our county tax was increased by $2,603.81.

These two increases were the cause of the higher tax rate. If Farmington could have received the usual state aid for the schools and county tax remained the same, the 1949 tax rate would have been less than 1948.

HIGHWAY DEPARTMENT

Owing to the terribly dry summer and the warm December along with rains, the country roads have not been in as good shape as in the past. It will take plenty of gravel this coming year to put them back in shape. Many of the side streets in the village have had a coat of

tar. As this hadn't been done for several years we thought it advisable. We intended to get a coat of tar on Memorial drive but the lateness of the season and weather conditions held this up. The street has been graded and is ready for tar early this coming season. As far as we know, our equipment is in very good shape.

POLICE DEPARTMENT

We feel that the police department has given the town good service. The two-way radio has been a big asset. Having been in contact with this department more than in previous years, we know they have one of the best filing systems of records in the state.

WELFARE DEPARTMENT

Business conditions during the past year have caused our welfare account to be overdrawn. It is too bad that more of the voters in town do not see this picture as we see it. This department takes more time, thought and money than the public realizes. The visiting nurse has helped a great deal in this department.

We would like, at this time, to thank all the organizations, and there are many of them, who have so generously helped, thus saving much expense for the taxpayers.

Respectfully submitted,

ERNEST J. KELLEY,

MELVIN F. EARLE,

LEO L. NEWBURY,

Selectmen of Farmington.

REPORT OF THE FOREST FIRE WARDEN

FOREST FIRES—OUR MOST SHAMEFUL WASTE

Everyone apparently fears fire but too many are careless with it. This is particularly true of fires in and

near woodlands. Official figures show that more than 98 per cent of all forest fires result from human carelessness and can be prevented. Consequently, we may say "Forest Fires are our most shameful waste".

Annual forest fire losses are tremendous and their effects far reaching. Such fires destroy the raw products of the forests, the protection forests provide for game and the supply of ground water. They upset local economies by drawing men from gainful employment and requiring the expenditure of public funds to extinguish them.

Our forest fire organization is doing a good job in keeping the size of fires small but the number of fires is increasing. In 1949 there were 100 more fires in New Hampshire than in 1948, but they burned 500 acres less. For the warden and his deputies to do the job they are capable of, they must have the cooperation of the public —you!

The primary objective of all fire fighters is prevention—fire stoppage. This is the goal toward which your local forest fire warden and his deputies are constantly working. It can be achieved only if you and you and you cooperate with them. It is worth your effort and can be accomplished by:

1. Being careful with fire in or near woodland, being particularly careful with matches and cigarettes.
2. Securing the required written permit from the warden when the ground is not covered with snow.
3. Insisting that others be careful and comply with burning requirements.
4. Calling the warden promptly when fire is detected and aiding him to extinguish it.

Let's reduce the number of forest fires and eliminate our most shameful waste.

1949 fire record:

Number of fires	3
Acreage burned	2
Number of fire permits issued	37

Respectfully submitted,

M. F. GIBBS,

Forest Fire Warden.

HEALTH OFFICER'S REPORT

From the nation down through its lesser municipalities and to the smallest community, the broad program of public health improvement is being advanced by the intelligent administration of education.

Already, it is established that Farmington has recognized and is taking part in this program. This is shown, not only by figures, but by a survey of general attitude which no longer is indifferent, but shows consciousness of individual and group responsibility in keeping this community secure from disease discomforts, infirmities, death, loss of man-hours in employments and in extremities of certain epidemics, the closing of public schools, institutions, amusements, curtailment of commerce and manufacturing. These, the health officer must

analyze, construe and administer. It entails constant study and close contacts with central sources.

We are much better fortified as the technicalities of "do" and "must" accumulate, for we have reputable physicians, a qualified visiting nurse service, vigilance on the part of the school board, superintendent and teachers, together with the cooperation of the selectmen, police, fire and highway departments. All of these fit into the program of public health improvement and frequently are joined in the issue of a single case. Good citizenship on the part of everyone at all times, is necessary.

The past year we have been joined by a kind providence in granting us the immunity of a single case of the dread polio, or the ravages of others of the more vicious communicable diseases.

Routine work of the health officer has increased consistently with the more exacting demands of the state, as the following figures, some of which are comparative, will show:

Miscellaneous complaints investigated, 173; quarantines, 1; polio, 0; spinal meningitis, 1 (quarantined); scarlet fever, 0; diptheria, 0; septic sore throat, 3; mumps, 37; measles, 21; venereal diseases, 3; stream pollution, 1; sanitation violations, 17; disposal of dead animals, 17; dog bite cases, quarantined, 3; applications for new and renewal foster homes, 17; orders issued on sustained complaints, 11; hearings, 0; prosecutions, 0; permits issued for exhumation of bodies, 2; permits issued for transporation of bodies, 3; investigation and reports of veterans' hospitals (outside state), 3; dairy investigations, 7; assisted in most state-supervised inspections, 21; collection of water, milk, food and dairy samples, 39; investigated applications for licenses for convalescent and rest homes, 3; attended all state-appointed sessions for special instruction.

Respectfully submitted,

CARL B. CANNEY,

Health Officer.

AUDITORS' CERTIFICATE

We hereby certify that we have examined the accounts of the selectmen, tax collector, town clerk, town treasurer and trustees of the trust funds, have compared their several accounts, vouchers and bank statement of funds on deposit and find these accounts in agreement and believe these reports to be a true account of the town business for the year ending December 31, 1949.

ARTHUR G. WEBSTER,
DONALD VAUGHN,
Auditors of the town of Farmington.
